Step-1:TeamGathering,CollaborationandSelecttheProblemStatement:-

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Bring your team together to ensure everyone is aligned on the problem you're aiming to solve. Prioritize volume over value in brainstorming and encourage all ideas.

Reference: www.mural.co/templates/brainstorm-and-idea ○ you can unleash their imagination and start shaping concepts even if you're not sitting in the same.

1

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Gather your team

Invite all relevant team members for a brainstorming session.

Discuss and define the core problem you're addressing

Ensure everyone is aligned on the main issue to be solved.

Refine the problem into specific insights

Detail the problem concerning the ideal user, challenge, and goal.

Step-2: Brainstorm, Idea Listing and Grouping:-

2

Step-2: Brainstorm, Idea Listing and Grouping

Brainstorm freely and widely to prioritize quantity over quality at first. Ensure all participants contribute. Then cluster and categorize similar ideas as you go.

Reference: www.mural.co/templates/brainstorm-and-idea-prioritization. to provtoo.

Brainstorming

Think of as many ideas as you can to seed creative thinking. Note down any essentials, out-of-the-box ideas, or potential enhancements.

Tip

Remind participants that every idea counts, no matter how big or concise, brainstroming is a free, direct talk, not a formal meeting, and, each suggestion.

Phase 1

Students need a free, easy-to-use goal manager

Secure login to protect users' personal data

Phase 2

Enable features for categorizing user goals

Include reminders for goal due dates

Phase 3

Add analysis of user's goal completion stats

Allow sharing of accomplishments with friends

Group Ideas

Take turns listing and categorizing ideas into meaningful groups to help refine and hone in on common themes.

Metaphorically, group ideas into clusters (e.g., 'Goal Organization' and 'Goal Organization').

Expand categories if necessary if you need to break it up into smaller sub-groups.

Tip

Take turns allowing everyone to cluster sticky notes into relevant themes. Prompt new ideas when needed. Each group should have a designated person to write down any ideas, make a list, and group.

Simple Interface

Simple Goal Manager

Security

Secure Login

Goal Organization

Goal Organization

Reminders & Progress Tracking

Reminders & Tracking

Friends Collaboration

Goal Sharing & Collaboration

Take turns listing and related ideas into meaningful groups to help refine and hone in on common themes. Use ideas.

Expand categories if necessary if you need to break it up into smaller sub-groups.

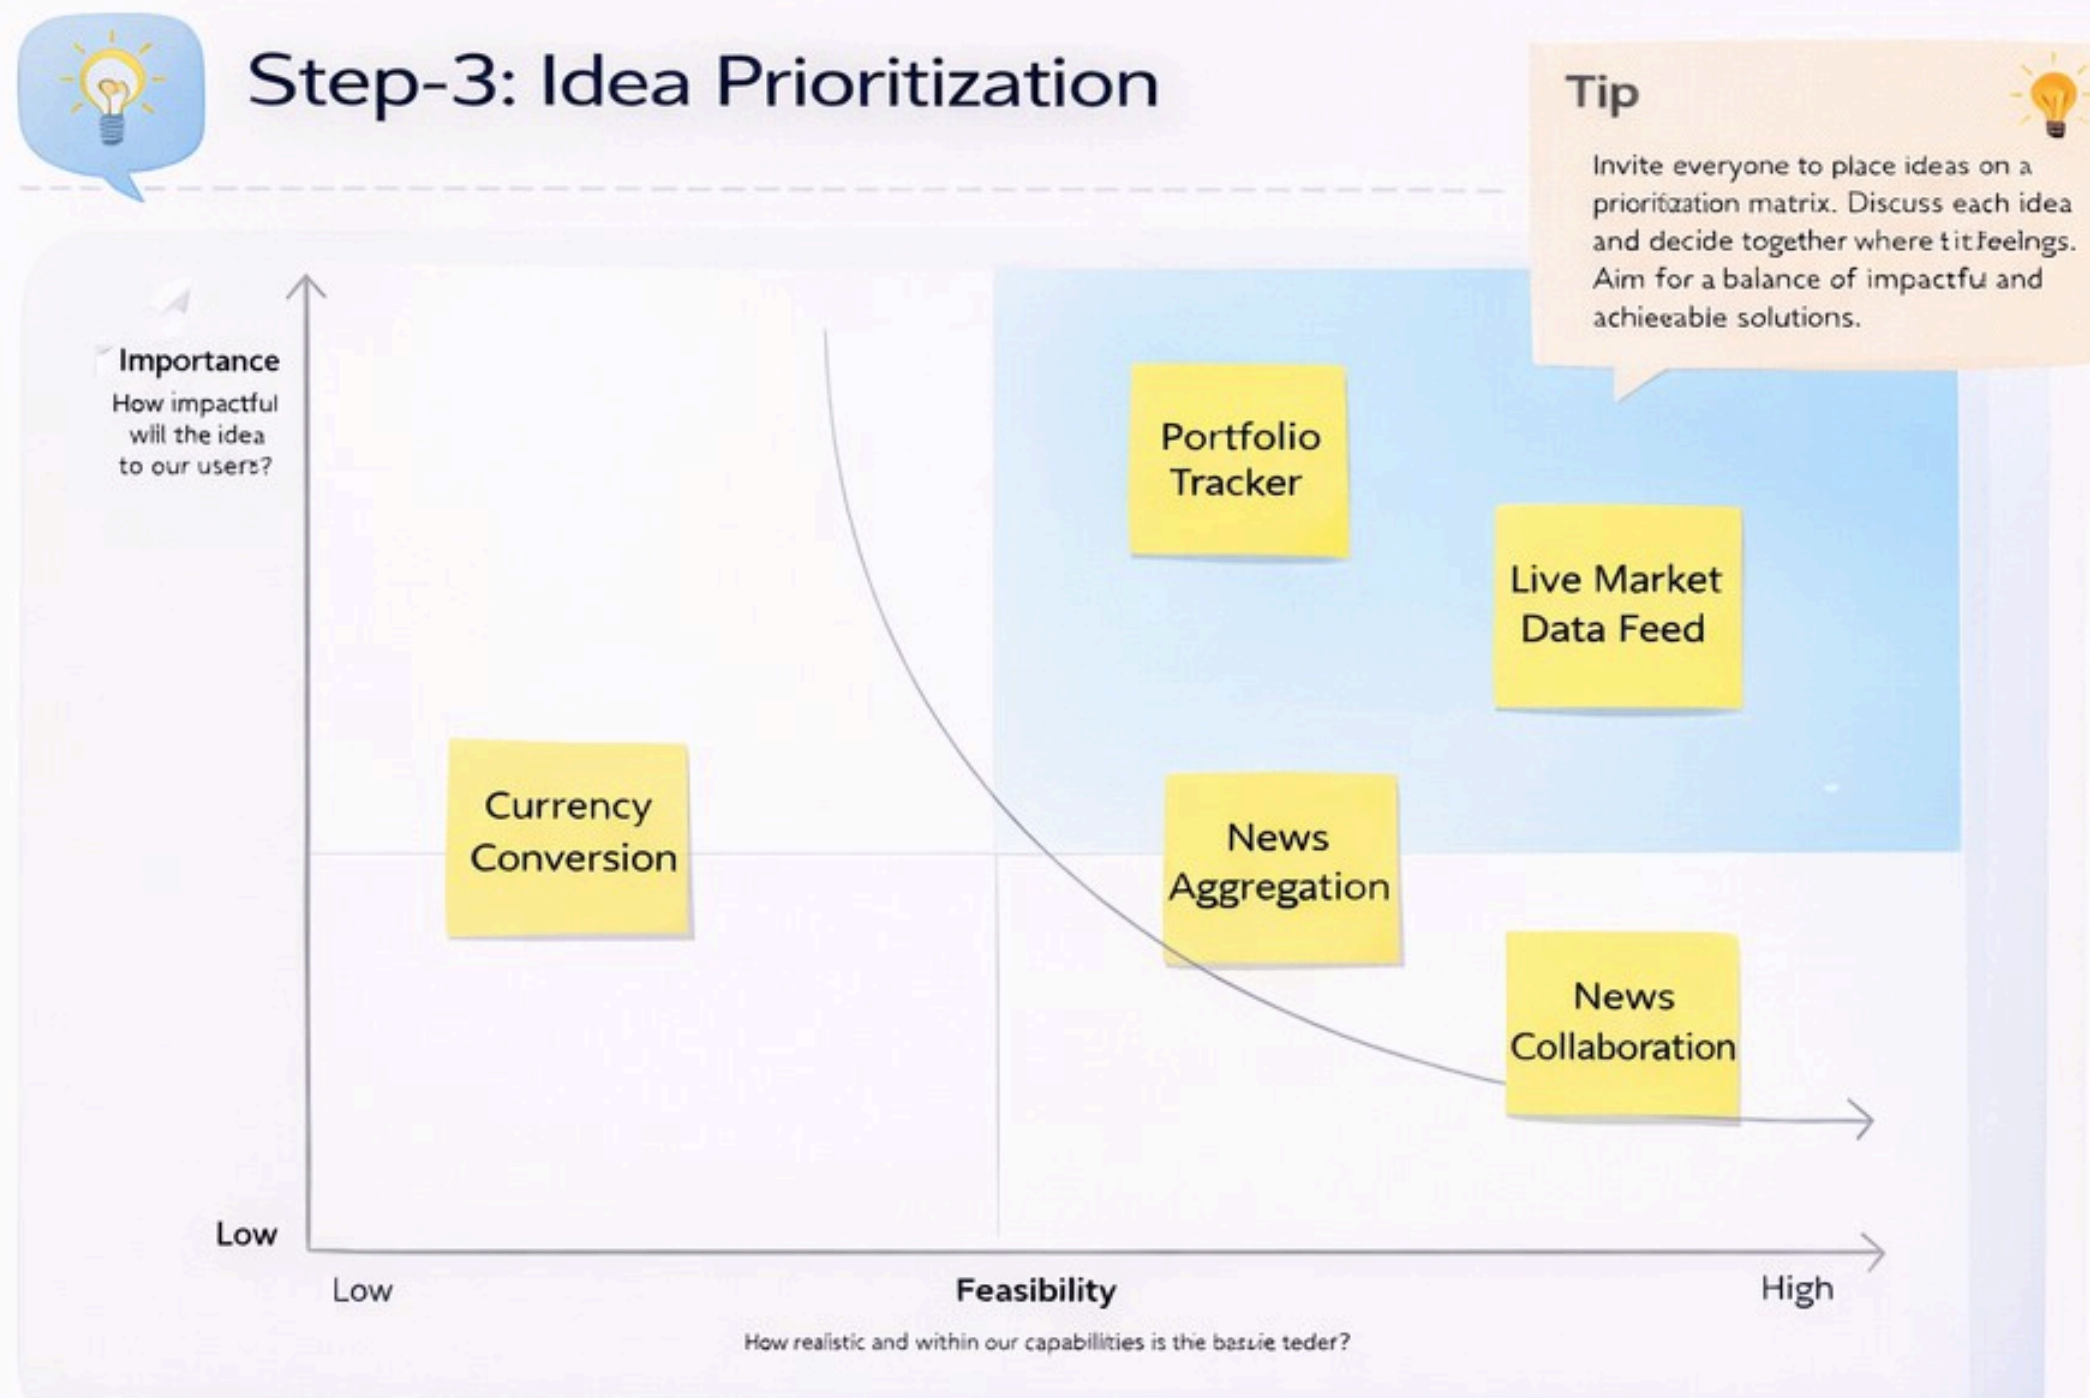

Step-3:IdeaPrioritization:-

3

Step-3: Idea Prioritization

Align the team by putting ideas on the same page about which important ones to focus on first. Use a prioritization matrix to rank ideas based on their importance to users and feasibility within the team's resources.

Reference: www.mural.co/templates/brainstorm-and-idea-prioritization. to provtoo.

Evaluate Ideas: Plot sticky notes on the matrix based on importance and feasibility. Discuss as a group.

Balance Impact & Resources: Focus on ideas that promise high user value and are realistic given the team's capabilities.

Select Top Priorities: Choose the most important and feasible ideas to move forward with and begin planning.
